The 640 fan cooled Rotax came in two different versions in reality. The once used in Nordics and Alpines and the one used in T'NT. Neither were high performance motors even the T'NT version. Yes, for it's day, the 640 T'NT was a torque monster but certainly never intended as a race motor.

## Get Free 640 Rotax Engine

640 - lots of power, hard to pull over, can be tricky to start....like any of the old twins, they tend to run hot on one side....reliability is so-so.... 1971 TNT 640 is book rated at 40 HP. (oddly enough, the 640 Nordic and Alpine are rated at 35 hp) Fairly quick sled, they just don't corner the best.... #3
