Admiralty Manual of Seamanship

Notes on Meteorology is intended to provide practical knowledge of meteorology. It describes some of the more common theory of weather phenomena as simply as possible. Drawings of instruments in this volume were from the Admiralty Manual of Seamanship while the map of the weather forecast areas supplied by the Meteorological Office. This second edition of the book contains several alterations in numerical quantities to reflect the changeover to metrication with SI units. Some chapters were revised and introductory notes were added on topics such as facsimile plotting and weather routing in order to fulfill the book's original purpose of providing a basic text on meteorology for examination candidates, yachtsmen and all interested in the subject of weather. This book will be of interest to students studying for their examinations and others interested in meteorology, particularly yachtsmen.

V.1. Practical guide for seaman officers covering syllabus for examination in Navigation and Pilotage.--v.2. Textbook of nautical astronomy and off-shore navigation.--v.3. Based on the navigation syllabus for officers qualifying in Navigation .--v.4. Data on navigational equipment. It is not available for public use.

Includes Errata Sheet of Notice to Mariners (NTM) 22/13. This book contains a complete copy of the Inland and International Navigation Rules as presented by the United States Coast Guard. The Coast Guard requires that an up-to-date copy such as this one be carried on all vessels 12 meters (39 feet) or more in length at all times. In addition to a complete copy of the USCG edition (COMDTINST M16672.2D), Paradise Cay Publications has added the following features to make our book more useful and comprehensive. 1) We have created an Annotated Contents. This added feature will help guide the reader to a desired rule. The topic of each subsection of the rules has been noted for quick reference along with the page numbers for Inland and International Rules. 2) We have updated this edition for corrections presented in Notice to Mariners up through November 15, 2004. 3) We have included detailed instructions on how to log on to the NGA (National Geospatial-Intelligence Agency, formerly NIMA) website and update this Rules Publication.

This third edition presents the most thorough revision of Seamanship Techniques since first publication in 1987. Already recognised as one of the leading texts for cadet and serving seafarers of all ranks, this new edition covers all the seamanship knowledge required by students and experienced seafarers alike. Ideal for Merchant Navy Officers from Cadet rank to Master Mariner, the new edition incorporates the 2003 amendments to the Collision Avoidance Regulations and new material covering regulations and practice on cargo operations, survival systems, GMDSS requirements, watch keeping duties, rescue operations and pollution control, to name a few. Used by training establishments around the world this is the only reference to both shipboard practice and ship operations that seafarers will need. \* Well-
