"Spanning eight kilometers of topographic relief, the Himalayan fold-thrust belt in Nepal has accommodated more than 700 km of Cenozoic convergence between the Indian subcontinent and Asia. Rapid tectonic shortening and erosion in a monsoonal climate have exhumed greenschist to upper amphibolite facies rocks along with unmetamorphosed rocks, including a 5-6-km-thick Cenozoic foreland basin sequence. This Special Paper presents new geochronology, multisystem thermochronology, structural geology, and geological mapping of an approximately 37,000 km<sup>2</sup> region in midwestern and western Nepal. This work informs enduring Himalayan debates, including how and where to map the Main Central thrust, the geometry of the seismically active basal Himalayan detachment, processes of tectonic shortening in the context of postcollisional India-Asia convergence, and long-term geodynamics of the orogenic wedge"--Publisher's website

This open access book brings together research findings and experiences from science, policy and practice to highlight and debate the importance of nature-based solutions to climate change adaptation in urban areas. Emphasis is given to the potential of nature-based approaches to create multiple-benefits for society. The expert contributions present recommendations for creating synergies between ongoing policy processes, scientific programmes and practical implementation of climate change and nature conservation measures in global urban areas. Except where otherwise noted, this book is licensed under a Creative Commons Attribution 4.0 International License. The Media Student's Book is a comprehensive introduction for students of media studies. It covers all the key topics and provides a detailed, lively and accessible guide to concepts and debates. Now in its fifth edition, this bestselling textbook has been thoroughly revised, re-ordered and updated, with many very recent examples and expanded coverage of the most important issues currently facing media studies. It is structured in three main parts, addressing key concepts, debates, and research skills, methods and resources. Individual chapters include: approaching media texts narrative genres and other classifications representations globalisation ideologies and discourses the business of media new media in a new world? the future of television regulation now debating advertising, branding and celebrity news and its futures documentary and 'reality' debates from 'audience' to 'users' research: skills and methods. Each chapter includes a range of examples to work with, sometimes as short case studies. They are also supported by separate, longer case studies which include: Slumdog Millionaire online access for film and music CSI and detective fictions Let the Right One In and The Orphanage PBS, BBC and HBO images of migration The Age of Stupid and climate change politics. The authors are experienced in writing, researching and teaching across different levels of undergraduate study, with an awareness of the needs of students. The book is specially designed to be easy and stimulating to use, with: a Companion Website with popular chapters from previous editions, extra case studies and further resources for teaching and learning, at: [www.mediastudentsbook.com](http://www.mediastudentsbook.com) margin terms, definitions, photos, references (and even jokes), allied to a comprehensive glossary follow-up activities in 'Explore' boxes suggestions for further reading and online research references and examples from a rich range of media and media forms, including advertising, cinema, games, the internet, magazines, newspapers, photography, radio, and television.
