Blending research, practical application, and imaginative writing, Arizona State University business professor Angelo Kinicki (author of Kreitner/Kinicki Organizational Behavior 10e) and writer Brian Williams (author of Williams/Sawyer Using Information Technology 7e) have created a market-leading text through highly-readable writing, an emphasis on practicality, and a unique student-centered layout. The authors present all basic management concepts in bite-size chunks, 2-to 6-page sections to optimize student learning and emphasize the practicality of the subject matter. This text is widely praised by today's visually-oriented students. In addition, instructors and students are supplied with a wealth of classroom-proven resources.

Practical skills. Relevant theory. Purposeful application. Kinicki/Williams 8e, Management: A Practical Introduction empowers students to develop the management skills necessary in everyday life through the practical and relevant application of theory. Developed to help students read and learn management with a purpose, this new edition engage students through current examples, imaginative writing and resources that work. The eighth edition of Management: A Practical Introduction--a concepts book for the introductory course in management--uses a wealth of instructor feedback to identify which features from prior editions worked best and which should be improved and expanded. By blending Angelo Kinicki's scholarship, teaching, and management-consulting experience with Brian Williams' writing and publishing background, we have again created a research-based yet highly readable, practical, and motivational text.

Management: A Practical Introduction 9e empowers students to develop the management skills necessary in everyday life through the practical and relevant application of theory. Developed to help students read and learn management with a purpose, it takes a student-centered approach. The revision introduces a new strategic career readiness theme throughout to address employers' concerns about students graduating without being career ready. It continues to engage students through current examples, imaginative writing, and resources that work. Their unique Teaching Resource Manual offers numerous suggestions for creating a discussion-oriented, experiential classroom.

Blending scholarship and imaginative writing, ASU business professor Kinicki (of Kreitner/Kinicki Organizational Behavior 5e) and writer Williams (of Williams/Sawyer Using Information Technology 5e) have created a highly readable introductory management text in an exciting student-friendly layout certain to be well received by today's visually oriented students. The authors have structured Management as a series of two-page spreads (i.e., left and right facing pages) of 2 - 6 pages per section, to optimize learning by presenting information in easily mastered "bite-size" chunks. Although the text is organized in a unique manner, the coverage of basic management concepts and principles is still prevalent. And besides presenting fundamental concepts of management, the book emphasizes practical advice throughout, expressed in the features "The Manager's Toolbox," "Practical Action" boxes, real-life "Example" boxes, "Management in Action" and "Ethical Dilemma" cases, and the Web-based "Taking Something Practical Away from this Chapter".

The seventh edition of Management: A Practical Introduction by Kinicki/Williams—a concepts book for the introductory course in management—uses a

wealth of instructor feedback to identify which features from prior editions worked best and which should be improved and expanded. By blending Angelo ' s scholarship, teaching, and management-consulting experience with Brian ' s writing and publishing background, we have again tried to create a research-based yet highly readable, practical, and motivational text. The primary goal is simple to state but hard to execute: to make learning Principles of Management as easy, effective, and efficient as possible. Accordingly, the book integrates writing, illustration, design, and magazine-like layout in a program of learning that appeals to the visual sensibilities and respects the time constraints and different learning styles of today ' s students. It is the hope that this product will make a difference in the lives of students, to produce a product that students will enjoy reading, and that will provide them with practical benefits.
