Remembering her exotic Las Vegas childhood, the flamboyant mother who abandoned her, and the foster parents who agreed to change their identities in order to adopt her, Mira Fenn returns to the home of her past and discovers her own latent powers. By the author of Through Wolf's Eyes. Reprint.

Into the Land of Unreason Has Bent Bamboo, the Monkey, betrayed the Exiles? Who gave Thundering Heaven the horrible new sword he bears: Soul Slicer—a blade designed to destroy both the living and the dead? What is the source of the terrifying chaos that has taken over the Lands Born from Smoke and Sacrifice? Why is Pearl Bright, the once robust Tiger, visibly failing? Despite the threat offered by this unknown enemy, a small band of scouts ventures into the tormented chaos beyond the last door into the Lands. Brenda Morris is not among their company—not by her own choice, but because her protective father, the true Rat—refuses to let his daughter go into danger. Instead, Brenda is ordered to resume her life as a college student in South Carolina, far from the Orphans' base in California. But Brenda's involvement in occult matters is far from over. A mysterious classmate hints that the fate of numerous interconnected realities are threatened by the force behind the chaos in the Lands. When the scouts vanish, Brenda must decide whether to hide behind her father's protection or to venture into realms no other Orphans has ever encountered. Bonus Material includes the newly expanded essay, "Flowers and Seasons of Ritual Magic." "This complex novel blends passion, jealousy between beings living and dead, and day-to-day reality with the mysticism of Chinese astrology.... Infused with the symbolism and resonance of Chinese astrology, Five Odd Honors offers readers a wide cast of characters and a multilayered drama rich in magic, treachery, raw courage and true friendship. BookPage "...one of the more enjoyable books I've read recently. Lindskold is no slouch as a storyteller." Green Man Review on Five Odd Honors

Summoned by the soothsayer-jaguar Truth, Firekeeper and her wolf companion work to identify a group of people who are utilizing forbidden ancient magic for sinister purposes. By the author of Wolf Captured. Reprint.

The last thing Firekeeper and Blind Seer ever thought would happen was that they would end up as part of a small alliance united to hold the gates of the Nexus Islands against the massed might of the Old World nations. If the alliance is to have any hope of success, Firekeeper and Blind Seer must first find a way to break querinalo: the arcane plague that tortures the body and soul of any who possess even the slightest trace of magical talent. If querinalo is not vanquished, the Nexus Islands will fall – opening the New World to invasion. This is not the first seemingly impossible challenge the wolf-woman has faced, but this time she may face it without Blind Seer at her side. When querinalo touched the blue-eyed wolf, Blind Seer discovered an aspect of himself that he will not speak of to anyone – not even to Firekeeper. As the rumbles of invasion shake the gates of the Nexus Islands, Firekeeper stands not only in danger of losing home and friends, but also of losing the partner of her heart.

As evocative and moving as Charles de Lint's Newford books, with the youthful protagonists and exciting action of Mercedes Lackey's fantasies, Thirteen Orphans makes our world today as excitingly strange and unfamiliar as any fantasy realm . . . and grants readers a glimpse of a fantasy world founded by ancient Chinese lore and magic. As far as college freshman Brenda Morris knows, there is only one Earth and magic exists only in fairy tales. Brenda is wrong. A father-daughter weekend turns into a nightmare when Brenda's father is magically attacked before her eyes. Brenda soon learns that her ancestors once lived in world of smoke and shadows, of magic and secrets. When that world's Emperor was overthrown, the Thirteen Orphans fled to our earth and hid their magic system in the game of mah-jong. Each Orphan represents an animal from the Chinese Zodiac. Brenda's father is the Rat. And her polished, former child-star aunt, Pearl—that eminent lady is the Tiger. Only a handful of Orphans remain to stand against their enemies. The Tiger, the Rooster, the Dog, the Rabbit . . . and Brenda Morris. Not quite the Rat, but not quite human either. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Hundreds of popular fantasy fiction titles are described and categorized according to their underlying features, including coming of age stories, Arthurian romances, breaking of curses, and barbarian warriors.

A young girl?s fatal, decade-long struggle with anorexia and bulimia is chronicled from her mother?s perspective in this heartbreaking memoir. Barbara Hale-Seubert tried to cope with grief, fear, and powerlessness as her daughter suffered through these diseases, and she kept a journal of their experiences as a form of therapy. These entries are the basis for a raw and revealing narrative, meant to offer other parents the comfort that comes with knowing they are not alone, the strength to help their children through the agony of eating disorders, and the grace to learn to surrender what is out of their control.
