Jaded cop Oliver Sullivan moved to picturesque Kettle Bend to leave behind bad memories. Locals leave him alone—until a video of him rescuing a drowning puppy goes viral, making him a celebrity! Sarah McDougall sees it as a perfect opportunity to promote the struggling town. But when she interviews the gruff cop, he's not the warm, caring hero she expects. Instead he claims to dislike dogs and distrust love. He's wrong on both counts—and she plans to prove it to him!

This handbook serves scientists and researchers interested in any aspect of spent hydroprocessing catalysts. Its aim is to assist in the analysis and assessment of refined catalyst byproducts and processing options, to determine whether spent catalysts can be processed into productive resources. For non-regenerable spent catalysts, the book takes into consideration both safety and ecological implications of utilizing landfill and other waste options. Provides comprehensive guidance and assistance to those making decisions on the fate of spent catalysts, radically improving strategic options for refining organisations Offers solutions that maximize procedural, regulatory, safety, and preparedness benefits Contains detailed information on hazardous characteristics of spent and regenerated catalysts with deployment recommendations, and acts as a benchmark document for establishing threshold limits of regulated species as well as for developing procedures for handling spent catalysts to ensure environmental acceptance

While electronic research has developed in many governments around the world, the majority of its research has focused on the supply and demand aspects of e-government instead of the focus on technology integration for successful e-government design. Technology Development and Platform Enhancements for Successful Global E-Government Design compiles the shared experiences of e-government designers and practitioners with a focus on technological design. By highlighting the different technological nuances that need to be incorporated into successful e-government designs, this book is a useful tool for professionals and researchers concerned with the organizational development in different types of e-government communities and environments.

New York Times bestselling sportswriter John Feinstein takes readers behind the scenes at the World Series in this exciting baseball mystery. When teen sports reporters Stevie and Susan Carol are sent to cover the World Series, the talk of the tournament is Norbert Doyle—a late call-up for an underdog team. But the more they learn about him, the more conflicting stories they hear. Bit by bit they piece together the shocking truth about this rising star, but once the secret's out, there's no going back. . . . John Feinstein has been praised as “the best writer of sports books in America today” (The Boston Globe), and he proves it again in this fast-paced novel.
