Dinky™ Toys : la nouvelle saga des ouvrants aux Editions Atlas Dinky Toys Car models. Atlas edition / Mattel. 1/43.

A guide for collectors discusses the history of die-cast toy cars of the 1950s and 1960s and surveys the companies that manufactured the toys around the world, including such major names as Dinky Toys, Corgi Toys, Solido, Tekno, and Tootsietoy.

This updated second edition now includes over 575 brands, as opposed to the only 170 brands presented in the first book. Once again this full-color guide will include popular contemporary brands such as Majorette, Tomica, Hot Wheels, Matchbox, Siku, Maisto, Bburago, Johnny Lightnings, and many others featured together in detail, showing the different models and thousands of variations. This extraordinary book is arranged alphabetically by brand name with hundreds of color photographs, manufacturers, model numbers, descriptions, scales, colors, distinguishing marks, and current market values. It provides a helpful bibliography and guide to resources for finding more diecast toys on the secondary market. 1998 values.

Few men over forty never owned a dinky toy when they were a child. This is the story of Britain's favourite toy cars.

Matchbox toys were ubiquitous items for children across the Western world. Originally labelled Christmas-cracker trash by retailers and shopkeepers, the small-scale 1-75 series soon began to see unprecedented worldwide sales in the 1950s. Smaller and cheaper than most of its competitors' toys, Matchbox models were also far more accurately modelled, but the company has nevertheless seen its own share of competition and challenging times over the years. In this beautifully illustrated book, Matchbox collector Nick Jones tells the story of Matchbox and its most famous toys, from the Coronation Coach to Hotwheels dragsters, and complements the story with beautiful, previously unpublished photographs.

The surge in the market for Corgi die-cast collectible toys has caused a demand for accurate, updated information on them - with *Collecting Corgi Toys*, readers will find everything they're looking for. This reference documents the history of the company and the evolution of its products from 1956 to 1984, and provides essential data and pricing for every toy produced in that time. Over 600 listings for toys and full sets include catalog number, year of introduction, last year produced, colors, identification notes, and current market value in British Pounds and U.S. Dollars. Corgi fans will find all their favorites inside, including racecars, service vehicles, military models, film and TV models, special models and much more. Nearly 150 full-color photos detail the most rare Corgi toys and sets on the market.

Yiddish is everywhere. We hear words like nosh, schlep, and schmutz all the time, but how did these words come to pepper American English? In *Yiddishkeit: Jewish Vernacular and the New Land*, Harvey Pekar and Paul Buhle trace the influence of Yiddish from medieval Europe to the tenements of New York's Lower East Side. This comics anthology contains original stories by notable writers and artists such as Barry Deutsch, Peter Kuper, Spain

Rodriguez, and Sharon Rudahl. Through illustrations, comics art, and a full-length play, four major themes are explored: culture, performance, assimilation, and the revival of the language. The last fully realized work by Harvey Pekar, this book is a thoughtful compilation that reveals the far-reaching influences of Yiddish. Praise for *Yiddishkeit*: “The book is about what Neal Gabler in his introduction labels ‘Jewish sensibility.’ It pervades this volume, which he acknowledges is messy; he writes: ‘You really can't define Yiddishkeit neatly in words or pictures. You sort of have to feel it by wading into it.’ The book does this with gusto.” —New York Times “Yiddishkeit is as colorful, bawdy, and charming as the culture it seeks to represent.” —Print magazine “every bit of it brimming with the charm and flavor of its subject and seamlessly meshing with the text to create a genuinely compelling, scholarly comics experience” —Publishers Weekly “Yiddishkeit is a book that truly informs about Jewish culture and, in the process, challenges readers to pick apart their own vocabulary.” —Chicago Tribune “a postvernacular tour de force” —The Forward “A fascinating and enlightening effort that takes full use of the graphic storytelling medium in an insightful and revelatory way.” —The Miami Herald “With a loving eye Pekar and Buhle extract moments and personalities from Yiddish history.” —Hadassah “gorgeous comix-style portraits of Yiddish writers” —Tablet “Yiddishkeit has managed to survive, if just barely, not because there are individuals dedicated to its survival, though there are, but because Yiddishkeit is an essential part of both the Jewish and the human experience.” —Neal Gabler, author of *An Empire of Their Own: How the Jews Invented Hollywood*, from his introduction “The hearty hardcover is a scrumptious smorgasbord of comics, essays, and illustrations, edited by Harvey Pekar and Paul Buhle, providing concentrated tastes, with historical context, of Yiddish theater, literature, characters and culture.” —Heeb magazine

Meccano was first on the scene with its die-cast Dinky Toys of 1933. Lesney's Matchbox series arrived twenty years later, at genuine pocket-money prices. And then in 1956 Mettoy's Corgi Toys appeared, packed full of astounding gimmicks. From incredibly humble beginnings - Lesney started life in a derelict north London pub - the British toy car industry grew into a lucrative world-beater, with fierce rivalry developing between the three main brands: Dinky, Matchbox and Corgi. Giles Chapman reveals the fascinating story behind the battle to dominate Britain's toy car industry, and the decline that drove it into history. This new edition benefits from expanded text, while still featuring a nostalgic selection of photographs, looking back over a vibrant and cherished chapter in British cultural memory.

This magnificent book covers the entire period of Corgi production, which commenced with the showing
