Jess Aarons has been practicing all summer so he can be the fastest runner in the fifth grade. And he almost is, until the new girl in school, Leslie Burke, outpaces him. The two become fast friends and spend most days in the woods behind Leslie's house, where they invent an enchanted land called Terabithia. One morning, Leslie goes to Terabithia without Jess and a tragedy occurs. It will take the love of his family and the strength that Leslie has given him for Jess to be able to deal with his grief. A total institution is defined by Goffman as a place of residence and work where a large number of like-situated, individuals, cut off from the wider society for an appreciable period of time, together lead an enclosed, formally administered round of life. Prisons serve as a clear example, providing we appreciate that what is prison-like about prisons is found in institutions whose members have broken no laws. This volume deals with total institutions in general and, mental hospitals, in particular. The main focus is, on the world of the inmate, not the world of the staff. A chief concern is to develop a sociological version of the structure of the self. Each of the essays in this book were intended to focus on the same

issue--the inmate's situation in an institutional context. Each chapter approaches the central issue from a different vantage point, each introduction drawing upon a different source in sociology and having little direct relation to the other chapters. This method of presenting material may be irksome, but it allows the reader to pursue the main theme of each paper analytically and comparatively past the point that would be allowable in chapters of an integrated book. If sociological concepts are to be treated with affection, each must be traced back to where it best applies, followed from there wherever it seems to lead, and pressed to disclose the rest of its family.

Put yourself at the heart of the story... The sole survivor of an expedition brings news of disaster. Your twin brother is lost in the trackless western sierra where none can survive. Resolving to find out his fate, you leave the safety of your home far behind. Your quest will take you to lost jungle cities, across mountains and seas, and even into the uncanny depths of the underworld. You will plunge into the eerie world of Mayan myth. You must confront vengeful ghosts and bloodthirsty gods, bargain for your life against terrifying demons, find allies and enemies among both the living and the dead. Then, if you are brave enough to face the dangers of the spirit-haunted western desert, you must still confront the wizard called Necklace of Skulls in a deadly contest whose stakes are nothing less than your own soul. \* \* \* Critical IF books are interactive adventures with a difference. Be anyone you can imagine. Choose from almost five hundred different character types, each with their own unique skills. Strong stories, vivid settings and compelling characters make Critical IF the game-changers of the interactive fiction genre.

With this stunning debut novel, New York Times bestselling author Lauren Oliver emerged as one of today's foremost authors of young adult fiction. Like Jay Asher's *Thirteen Reasons Why* and Gayle Forman's *If I Stay, Before I Fall* raises thought-provoking questions about love, death, and how one person's life can affect so many others. For popular high school senior Samantha Kingston, February 12—"Cupid Day"—should be one big party, a day of valentines and roses and the privileges that come with being at the top of the social pyramid. And it is...until she dies in a terrible accident that night. However, she still wakes up the next morning. In fact, Sam lives the last day of her life seven times, until she realizes that by making even the slightest changes, she may hold more power than she ever imagined. *Before I Fall* is now a major motion picture Zoey Deutch, Halston Sage, and Kian Lawley. Named to numerous state reading lists, the novel was also recognized as a Best Book of the Year by Amazon.com, Barnes & Noble, The Daily Beast, NPR, and Publishers Weekly.

After his father's death, young Morte must come to terms with his inheritance. And it is is NOTHING like what he imagined it would be...

I never wanted to read Sir Thomas Malory's great classic, *Le Morte D'Arthur*. All my friends warned me against it. But it seemed inevitable -- it is, after all, one of the foundational texts of English-language fantasy literature. It's also a repetitive, nonsensical slog through jousting tournament after jousting tournament, with dozens of knights (all of whom have ridiculous names) and nearly as many damosels (most of whom Malory doesn't bother to name). It's with you in mind that I wrote this. Take it, and read it, and avoid reading the raw vintage fifteenth-century Arthuriana. In this volume, I retell *Le Morte D'Arthur*, book by book, chapter by chapter. As we go, I point out all Malory's continuity errors, laugh at his bizarre sexism, and make a couple of jokes along the way. This volume (#1) describes the first two books of the saga. Thrill as Arthur is conceived! Marvel at what a jerk Merlin turns out to be! Enjoy the one bit of the story that everybody knows, with a sword stuck inside something! Be amazed as Malory repeats the sword-stuck-inside-something motif twice more in this volume alone! These are tales of Arthur's early days, back before he settled down and married Guenever and had the Round Table rolled into Camelot.
