Achieve high standards in patient-focused care. Health Services Assistance provides complete coverage of core and elective units for assisting in nursing work in acute care. Exercises throughout the text provide students with the means to self-assess and extend their skills and knowledge. Foundation skills are developed early, underpinning understanding of the specialist acute care chapters that follow. Students are encouraged to reflect and contextualise their learning and to practise techniques in small groups. Activities break up the material so information is easier to retain. Self-check, extension activities and discussion questions can be incorporated into an institution's assessment strategy. Health Services Assistance is structured by competency for HLT33115 Certificate III in Health Services Assistance, supporting nursing in acute care, and is packed with specific cases and examples, as well as including additional content on

The Disability Support Worker is a new Australian text providing a practical introduction to the role and responsibilities for workers providing crucial support to clients with a disability.

Birth to Big School is designed to support the Certificate III in Early Childhood Education and Care in a holistic and integrated way while addressing the relevant units of the Training Package, and mapping is available to link content to units. The text emphasises the importance of knowing the traditional domains of development and links them to the Early Years Learning Framework (EYLF) and the National Quality Standards (NQS) by using down-to-earth practical examples.

Questions enable students to check their understanding of the content and provide a reference point to the NQS. Premium online teaching and learning tools are available on the MindTap platform. Learn more

This volume interrogates settled ways of thinking about the seemingly interminable conflict between religious and secular values in our world today. What are the assumptions and resources internal to secular conceptions of critique that help or hinder our understanding of one of the most pressing conflicts of our times? Taking as their point of

departure the question of whether critique belongs exclusively to forms of liberal democracy that define themselves in opposition to religion, these authors consider the case of the “ Danish cartoon controversy ” of 2005. They offer accounts of reading, understanding, and critique for offering a way to rethink conventional oppositions between free speech and religious belief, judgment and violence, reason and prejudice, rationality and embodied life. The book, first published in 2009, has been updated for the present edition with a new Preface by the authors.

This innovative text uses a 'common sense' approach to introduce students to real-life medication problems. Featuring a range of exercises and assessments and supported by an interactive companion website, this is the perfect handbook for anyone seeking to improve

their numeracy skills for medication administration.

The series Studies on Modern Orient provides an overview of religious, political and social phenomena in modern and contemporary Muslim societies. The volumes do not only take into account Near and Middle Eastern countries, but also explore Islam and Muslim culture in other regions of the world, for example, in Europe and the US. The series Studies on Modern Orient was founded in 2010 by Klaus Schwarz Verlag.
