forensic science ...*

One reason why ethics is so important in the
field of forensic science is because the
results yielded by physical evidence
discovered at a crime scene have a great
impact on the lives of others (Barnett,
2001). When evidence is mishandled,

Ethics and Training in Forensic Science
Most practitioners in forensic science and forensic medicine are committed, hard-working, ethical professionals; however, education and guidance on professional responsibility is uneven and there is no enforceable universal code of professional responsibility. In addition, when an adverse event
