sheep, is that you know who wore your sweater first. One caveat is that shearing sheep does not harm the animals, and is essential to their health and well-being. At the same time, sheep often enjoy being sheared as they end up being 6-8lbs lighter, and it is far easier to go through doorways and gates.

the springtime. A veteran shearer can shear up to two hundred sheep per day. The fleece recovered from a sheep can weigh between 6 and 18 pounds (2.7 and 8.1 kilograms); as much as possible, the fleece is kept in one piece. While most sheep are still sheared by hand, new technologies have been developed that use
