The criterion of inclusiveness concerns “the number and type of phenomena [a theory] encompass[es]” (Sidman, 1960, p. 13). For example, Einstein’s theory of relativity deals with many different types of events, including the relationship between time and space, the nature of light, and the speed of objects.

The point here is that the current paradigm in HRD treats employees as value creators and assets based on the RBV or the Resource Based View of the firm that has emerged in the SHRM (Strategic Human Resource Management) field. The field of HRD spans several functions across the organization starting with employee recruitment and training, appraisals and payroll and extending to the recreational and motivational aspects of employee development.

Overview. The Human Growth and Development exam (infancy, childhood, adolescence, adulthood, and aging) covers material that is generally taught in a one-semester introductory course in developmental psychology or human development. An understanding of the major theories and research related to the broad categories of physical development, cognitive development, and social development is required, as is the ability to apply this knowledge.
