CHORALE (BWV 26): Ach wie flüchtig, ach wie nichtig Amazing Grace - Mormon Tabernacle Choir

Cantar en coro es una de las actividades más placenteras y enriquecedoras que existen. Todo el mundo puede cantar porque está en nuestra naturaleza, sin embargo, la formación de un cantante no se da de modo espontáneo, sino que debe entenderse como la adquisición de una habilidad psicomotriz. El esquema corporal vocal lo constituyen experiencias significativas, organizadas y sistematizadas tanto mental como corporalmente y para ello se diseñan los ejercicios vocales y las propuestas metodológicas con el fin de que se apliquen a un grupo de cantantes. • Las etapas vocales: Primera y segunda infancia, adolescencia y adultos. • La educación vocal y musical en los coros. • Elección del repertorio. • La preparación más adecuada para un concierto. • El mundo coral en España e Hispanoamérica.

Este libro ofrece un marco teórico desde el cual reflexionar sobre Internet, y también aporta ideas, estrategias, actividades, materiales y recursos que faciliten la enseñanza y el aprendizaje musical aprovechando su inmenso potencial.

digitales se han consolidado como una alternativa que desafía la hegemonía de las partituras impresas como medio paradigmático para el registro, la transmisión y el acceso a la información musical, Junto con esta nueva realidad documental se han ido desarrollando múltiples formatos para la codificación del fenómeno musical, dispositivos para la lectura y la escritura de textos musicales, así como un elenco muy extenso de nuevas funcionalidades que permiten mejorar la experiencia de la lectura y la interpretación en distintos contextos y ámbitos de aplicación, La presente obra aborda todas estas coyunturas desde la perspectiva de servir de guía para adentrarse en una nueva realidad compleja que ha llegado para quedarse, y que está revolucionando con gran intensidad todos y cada uno de los estamentos del ecosistema de la información musical,

What choral conductor or soloist has not looked around for new ideas for warming up the voice? Here are 200 suggestions all at once! And these creative exercises do more than just warm up the voice: they help to relax the body, train the ear and develop an awareness of dynamics and rhythm. "Klaus Heizmann's collection is a wonderful new resource of ideas and techniques: practical, varied, challenging, relaxing and stimulating. I am always looking for new ideas, as I like to use a different set of warm-ups at every rehearsal with my choirs, and I tend to choose specific exercises to suit the repertoire for the day. This collection gives us 200 excellent "tools-of-the-trade"; they are clearly labeled, intelligently set out, well-designed and extremely useful." (Simon Carrington, Director of Choral Activities, New England Conservatory since 2001; Director of Choral Activities, The University of Kansas 1994-2001; Founder and co-director of the King's Singers 1968-1993)

2009), it presents works of salient importance to the development of choral music in Western culture, representing the music of the composers, eras, and movements discussed most prominently in that volume. Including 132 compositions by 124 different composers, each presented unabridged and in full score, and spanning the entirety of Western music history, from the medieval era through the twentieth century, and into the twenty-first, Choral Scores is the most thorough, and up-to-date collection of choral music available. Complete with an appendix offering literal translations of texts, as well as composer and genre indices, Choral Scores is an essential reference for choral scholars, teachers, and students alike.
