For automatic gearbox F4AEL requires the use of high-quality oil. The transmission oil is gradually contaminated and has lost some of its properties in the process of exploitation. Moreover, during using low-quality lubricants solenoids soon can be damaged. All of this led to a long and laborious repair the automatic transmission F4AEL.

~~ATSG Home Page~~

The F-4EAT was a 4-speed, electronically controlled automatic transmission developed by Mazda and JATCO starting in 1990. It was also later produced by Ford Motor Company from 1991 to 2003, to replace the aging, 3-speed/hydraulic controlled ATX. It is referred to as the F4A-EL by Mazda and Kia who also used this transmission.
