From award-winning musician and composer Warren Ellis comes the unexpected and inspiring story of a piece of chewing gum. Featuring an introduction from Nick Cave. 'Warren has turned this memento, snatched from his idol's piano in a moment of rapture, into a genuine religious artefact.' NICK CAVE 'In praise of meaning-rich relics and magical things. Totally heartwarming project.' MAX PORTER 'A unique study of a fan's devotion, of transcendence and of the artistic vocation - it's got depth and great warmth. It's a beautiful piece of work.' KEVIN BARRY On Thursday 1 July, 1999, Dr Nina Simone gave a rare performance as part of Nick Cave's Meltdown Festival. After the show, in a state of awe, Warren Ellis crept onto the stage, took Dr Simone's piece of chewed gum from the piano, wrapped it in her stage towel and put it in a Tower Records bag. The gum remained with him for twenty years; a sacred totem, his creative muse, growing in significance with every passing year. In 2019, Cave - his collaborator and great friend - asked Warren if there was anything he could contribute to display in his *Stranger Than Kindness* exhibition. Warren realised the time had come to release the gum. Together they agreed it should be housed in a glass case like a holy relic. Worrying the gum would be damaged or lost, Warren decided to first have it cast in silver and gold, sparking a chain of events that no one could have predicted, one that would take him back to his childhood and his relationship to found objects. Nina Simone's Gum is about how something so small can form beautiful connections between people. It is a story about the meaning we place on things, on experiences, and how they become imbued with spirituality. It is a celebration of artistic process, friendship, understanding and love.

Growing up on a twenty-?ve acre farm in Amherst, Massachusetts, in the 1950s, author James B. Ricci had his eye on the Locke Power Lawn Mower; it was a familiar sight in the Northeast back then, with its dark- green body and yellow pinstripes. In 1992, Jim bought his own Locke and became interested in penning a booklet about the power lawn mowers made by The Locke Steel Chain Company of Bridgeport, Connecticut. His topic naturally expanded, exponentially. Many years and much research later, this book on the development of the lawn mower in the United States--from the mid-nineteenth century to the start of World War II--is the result of his efforts. It features nearly 200 individuals or corporations that manufactured lawn mowers in this country and offers a snapshot on the patents, products, and historical contributions each brought to the industry. It also offers interesting anecdotes, photographs, and ephemera from the author's extensive collection.
