The Firm, the Market, and the Law, Coase

According to Ronald Coase's essay *The Nature of the Firm*, people begin to organise their production in firms when the transaction cost of coordinating production through the market exchange, given imperfect information, is greater than within the firm.. Ronald Coase set out his transaction cost theory of the firm in 1937, making it one of the first (neo-classical) attempts to define the firm ...

Theory of the firm - Wikipedia

The model above shows institutions and market as a possible form of organization to coordinate economic transactions. When the external transaction costs are greater than the internal ones, the firm will grow. When it is the other way round, it will be downsized by
