Water Conservation | List of High Impact Articles | PPTs ...

Water Conservation is the process of saving water everywhere in the world. Do you know why we need to save water? Well we need to save water because it would help out animals and people in need of food or water. If a human, plant, or animal lives in the desert then they won't have any water and they will probably die from thirst and hunger.

Abstract: We assessed impacts on water use achieved by implementation of controlled experiments relating to four water conservation strategies in four towns within the Ipswich watershed in Massachusetts. The strategies included (1) installation of weather-sensitive irrigation controller switches (WSICS) in residences and municipal athletic fields; (2) installation of rainwater harvesting systems in residences; (3) two outreach programs: (a) free home indoor water use audits and water ...
