

101 Games And Activities For Children With Autism Asperger S And Sensory Processing Disorders

101 Games And Activities For Children With Autism Asperger S And Sensory Processing Disorders 101 Games and Activities for Children with Autism Aspergers and Sensory Processing Disorders Autism activities Aspergers activities sensory processing disorder activities SPD games autism games therapeutic activities special needs activities childrens activities developmental activities inclusive activities Children with autism spectrum disorder ASD Aspergers syndrome now considered part of the ASD umbrella and sensory processing disorder SPD often experience the world differently What might be a simple task for neurotypical children can be overwhelming or frustrating for them Providing engaging and therapeutic activities tailored to their specific sensory needs and developmental levels is crucial for their growth and wellbeing This post offers a comprehensive list of 101 games and activities categorized for easy navigation along with practical tips and considerations

I Understanding Sensory Needs

Before diving into the activities its vital to understand the different sensory systems and how they might be impacted in children with ASD and SPD These include

- Visual** Sensitivity to light patterns or movement Some children might be overwhelmed by bright lights while others might seek them out
- Auditory** Sensitivity to sounds volume and pitch Certain noises might be intensely irritating or even painful
- Tactile** Sensitivity to touch textures and temperatures Some children might dislike being touched while others might crave deep pressure
- Vestibular** Relates to balance and movement Some children might avoid activities involving movement while others might seek out spinning or swinging
- Proprioceptive** Awareness of body position and movement in space This can affect coordination and motor skills

Understanding your childs specific sensory sensitivities is key to selecting appropriate activities Observe their reactions to different stimuli and adjust accordingly

II Categories of Activities

A Calming Regulating Activities For OverStimulated Children
